Dear YEONJUN KIM,

It is our privilege to offer you admission to the Engineering Science program in the University of Toronto's Faculty of Applied Science & Engineering beginning in September 2025. Your record of achievement both inside and outside the classroom distinguishes you as one of our most promising prospective students in a competitive pool of more than 16,000 applicants. We believe you will thrive within our community of engineering innovators who share a passion for learning, a deep curiosity about the world and a commitment to making a difference for all of humanity. Congratulations and welcome to U of T Engineering!

By accepting this offer, you will join Canada's #1-ranked engineering school and one of the best in the world. You also join a university that recently ranked 12th in the world for graduate employability, and first in the world for sustainability. Our tight-knit community of students, faculty, staff and alumni are eager to guide and support you on a unique academic journey that will help you reach your highest potential. You will benefit from all the resources of a major international institution in the heart of Toronto, and become part of a connected, inclusive and diverse community. Here, you will build friendships and networks that will last a lifetime.

In accepting your offer to U of T Engineering, you also secure your place in the Professional Experience Year Co-op Program (PEY Co-op). Through PEY Co-op, you will gain up to 20 months of meaningful, paid work experience while developing invaluable professional skills. You'll begin your career-development journey in first year, through tailored programming and special events. In addition to PEY Co-op, you will have access to a wealth of opportunities to help you further explore your interests, from multidisciplinary minors and global experiences to starting your own company through The Entrepreneurship Hatchery. You will graduate with professional confidence and a degree that is highly regarded worldwide, empowering you to make a positive impact in today's complex global environment.

You have a lot to think about while making this important decision about your future — and we are here to help. We encourage you to visit uofteng.ca/WelcomeToSkule, a website designed for you and your future classmates. Here you can learn more about what it means to join our vibrant and supportive community. If you have questions, contact us at admit@engineering.utoronto.ca.

Prior to registration, all students are required to provide official proof of graduation and satisfactory completion

of all prerequisite requirements. You have been admitted on the strength of your mid-term grades. The Faculty reserves the right to withdraw this offer if your final average falls below 85%, if you achieve a grade of less than 80% in any of the prerequisite courses, or if you fail to meet your diploma requirements by June 30, 2025. This deadline will not be extended to allow for the completion of summer courses. The OUAC sends us final results in late July and your final marks and diploma status will be reviewed at that time. The Faculty also reserves the right to withdraw this offer and cancel any subsequent registrations if any of the information provided or documents submitted through the admission process are found to be misleading or false.

We are pleased to inform you that you have been offered a scholarship. For details of your award, please see the scholarship letter on the Engineering Applicant Portal.

Your Next Steps:

- Review the website for admitted students at uofteng.ca/WelcomeToSkule.
- Accept your offer at www.ouac.on.ca. Your response must be received no later than May 1, 2025.
- To accept your offer, you are also required to make a non-refundable \$5000.00 admission deposit no later than May 1, 2025. Log on to <https://acorn.utoronto.ca/> to make your deposit.
- Apply for a study permit as soon as possible using the Letter of Acceptance for Study Permit Application (Consulate Letter). You will need to submit a Provincial Attestation Letter (PAL) as part of your study permit application. The university will provide you with a PAL after you accept the offer and make the admission deposit.
- You are guaranteed a space in residence provided you meet the terms and conditions of the Residence Guarantee. Login to StarRez at uofteng.ca/residence to ensure you complete all required steps before March, 31, 2025.

Once again, congratulations! We hope that you will choose to start the next chapter of your life here at U of T Engineering and make your distinctive contribution to a legacy that is more than 150 years in the making. You belong here and we are eager to welcome you to the community.
