Dear YEONJUN KIM,

I am delighted to welcome you to the University of Toronto community. Based on your outstanding application, you have earned the U of T Engineering International Scholar Award with a value of \$80,000.

You will be awarded \$20,000 for your first year of study and the award is renewable for second, third and fourth year of your engineering studies provided you remain in good academic standing. The details of your scholarship, including important deadlines and conditions, can be found in the Terms & Conditions in the Engineering Applicant Portal.

Your record of achievement and passion for engineering distinguishes you as one of our most promising applicants in a very competitive pool of more than 16,000 prospective students. With your strong academic background, we believe you will both contribute to and thrive within our rich learning environment. U of T Engineering students take immense pride in the clubs, organizations and activities they lead outside of their academic lives. I'm sure you will find plenty of opportunity to pursue your interests – and perhaps find new ones – here at U of T. Once again, congratulations. I look forward to meeting you this fall, and seeing all the ways you will further enrich our great community."

Yours sincerely,

A handwritten signature in black ink, appearing to read "Chris Yip".
